Professional and Academic Experience

Teaching

Instructor, STONY BROOK UNIVERSITY.

Mathematical Statistics (undergraduate, Spring 2017, Fall 2017, Fall 2018).

Money and Banking (undergraduate, online, Winter 2016).

Labor Theory (undergraduate, online, Summer 2016, Summer 2017 and Summer 2018).

Teaching Assistant: graduate level, STONY BROOK UNIVERSITY.

Macroeconomics.

Teaching Assistant: undergraduate level, STONY BROOK UNIVERSITY.

Introduction to Economics, Intermediate Microeconomics, Intermediate Macroeconomics, Mathematical Statistics.

Professional

- 2010–2014 **Economist**, J.P. MORGAN, New York and Brazil.

I was member of the Emerging Markets Latin America Research team headed by Luis Oganes, PhD at NYU. My work was focused on economic and policy research analysis of Brazil, Colombia, Peru, Bolivia and Venezuela. I was responsible for all econometric modeling and data analysis for these countries, with a particular focus on inflation, fiscal policy, balance of payments analysis and political analysis. I was also involved in all publications that involve J.P. Morgan's Latin America regional coverage and fixed income strategy. Moreover, I frequently participated in meetings and conference calls with internal (traders and sales) and external (hedge and pension funds) clients and also with policy makers and central bankers.

- 2009 **Research Assistant**, FIPE – ECONOMIC RESEARCH FOUNDATION, Brazil.
Assistant of Professor Marcos Rangel, Assistant Professor in the Sanford School of Public Policy. The research focused on social inequality and public policy analysis in cooperation with the Racial Institute Research of University of São Paulo – a diverse research environment that counted with scholars from sociology, philosophy, history and public policy analysis. The focus was in a comparative analysis of affirmative actions to reduce gender and ethnic inequality in the US and in Brazil. I developed Microeconomic data analysis and worked on a literature review, which was later applied in my B.A. conclusion paper entitled “A study of racial phenotype impact on education and wages levels”.
- 2006–2008 **Intern Economist**, J.P. MORGAN, Brazil.
Responsible for Brazil inflation short and long-run term forecasts, achieving for several times Brazilian Central Bank “Top 5” rank. Assistance in Colombia and Peru countries research routine. Research assistant in econometric forecast analysis.
- 2005 **Intern Economist**, TÊNDENCIAS CONSULTANCY, Brazil.
Intern part of the Oil and Gas study group in the biggest Economic and Political Consultancy in Brazil, collaborating for the development of sectorial analysis reports, time series analysis and writing blast report to clients.
- 2000-2005 **Others**, Brazil.
I’ve also worked as sales representative in a local recreation center full time during my whole High School and as Secretary in a Law Firm during my first years in College. During my last year in College I also developed a small firm that focused on the production of basic apparel with sustainable fabrics. These are experiences that broaden and develop my professional perspective and ethic.

Participation in conferences

- 2018 The Midwest Economic Association Annual Meeting with the paper “The Political Dynamics of Debt and Entitlements” (joint with Marina Azzimonti).
International Game Theory Conference at Stony Brook with the paper “Budget Rules and Political Turnover”
The Center for Behavioral Political Economy Seminar at Stony Brook with the paper “Budget Rules and Political Turnover”

Discussions

- 2018 “Legislatures and Growth” by Andrew Jonelis, University of Kentucky in the The Midwest Economic Association Annual Meeting, 2018.
